

YUUvis® API Terms & Conditions

1. Preamble

- 1.1 yuuviz[®] API is a cloud-based API service, a Platform-as-a-Service (“PaaS”), that lets companies create intelligent document management solutions tailored to their unique information needs. With the yuuviz[®] API products, customers can build an entirely new system or enhance an existing one.
- 1.2 OPTIMAL SYSTEMS North America Inc (“OS”), Delaware, provides the yuuviz[®] API products and services to its customers (“Customer”) under the terms and conditions of this agreement including its appendices (the “Agreement”).
- 1.3 The Agreement applies to the provision of the following **yuuviz[®] API** services (the “Service” or “Services”), once purchased by the Customer.

2. Enterprise SLA

- 2.1 In addition to this Agreement, the Customer and OS may enter into an Enterprise Service Level Agreement (“Enterprise SLA”) for provisioning the Services. Such an Enterprise SLA is an appendix to this Agreement, and the parties may agree to deviate from any section in this agreement in the Enterprise SLA. All provisions of the Enterprise SLA shall take precedence over this Agreement.

3. Order placement and conclusion of this Agreement

- 3.1 OS provides a self-service website, from which a Customer may review the offered Services and may order the Services by selecting and purchasing a Subscription Plan.
- 3.2 After purchasing a Subscription, the Customer may start using the Services. An account is created automatically during the purchase process.
- 3.3 To enter into an Agreement with OS:
 - the Customer must accept this Agreement on the self-service website and must order the Services with an associated Subscription Plan.
 - OS then reviews the order and may confirm the order in writing (on the self-service website or by email or in another appropriate text format). Only by confirming the order does the Agreement between the parties become effective and access to the Services become activated. Please note that a receipt message (“we have received your order”) is not yet an order confirmation.

- OS will then issue electronic Access Keys to the Customer.
